

The following Order of Battle Rosters are not strictly necessary to play the game (see Rule 20.1), but are provided for those who wish to have an easy method of tracking their losses since casualties do count toward Victory Points (see Rule 26). The ammo boxes for artillery are, however, required (see Rule 20.6) and are also provided for player convenience. These OB Rosters are compatible with both the original game and Greg Laubach's corrected counters, particularly the artillery type breakdowns. There is also a box to track Sigel's (Union) "Detached" status (see Rule 21.1).
