Each reinforcement unit should be placed in a space on the Track which depicts a unit of its type. Spaces not fitted are for Japanese units, spaces fitted green are for U.S. units. Only one unit should be placed in each unit space.

The Game-Turn Marker should be placed in a Game-Turn space number One. At the conclusion of every Game-Turn, the Game-Turn Marker should be moved to the next Game-Turn. Reinforcement units are removed from the Track and placed on the map during the Game-Turn next to which they are listed. Japanese reinforcements may land on any coastal hex, or they may be placed on any hex on the east map edge. U.S. reinforcements may land only on coastal hexes between hexes 2003 and 3003, inclusive.
